Air-Hose Spring Balancers

For ergonomic assembly work with pneumatic tools

MADE IN GERMANY

DIN 15112

www.kromer.com

Manufactured to the highest quality standards

Kromer retractors and balancers are distinguished by their durability and exceptional precision. They are manufactured to the highest quality standards, extensively tested over the long term, and stand as a prime example of the "Made in Germany" quality promise. Across many industries, they are already being used to improve working conditions and ensure smooth processes.

Kromer's high-quality air hose retractors and balancers are available in various configurations. You can choose from the entry-level model designed for small pneumatic tools, optimized versions with guided spiral hoses, or particularly robust models built for continuous heavy-duty use.

Depending on the model, our air spring balancers can handle loads ranging from 0.4 to 14 kilograms. The maximum cable extension varies between 0.8 and 3 meters. Simply select the solution that best meets your specific needs. With a consistent air flow of 900 l/min at a maximum pressure of 10 bar, all our models meet practical industry requirements.

Your most important advantages at a glance:

POWER
Reliability and longevity guarantees a steady and high performance.

SAFETY
High-safety standards and many safety features for safe operations and services.

PRECISION
Specially designed for very sensitive work. Ensures high precision and ergonomics.

AIR-HOSE DESIGN
High-quality and flexible air-hose with in different versions and an operating pressure up to 10 bar

KNOW-HOW
Over 100 years of know how in the development and production of high-quality spring balancer solutions.

MADE IN GERMANY
Exemplary example of the value concept "Made in Germany". Kromer stands for reliable and durable

SERVICE
Highest service level before and after purchase. Fast spare parts support, delivery times and maintenance services and individual

PRODUCT FUNCTION

Ergonomics and efficiency in perfect balance

Air hose spring balancers and retractors are essential production aids for improving ergonomics and efficiency in the workplace. They relieve the operator by balancing the weight of pneumatic tools and ensuring that hoses are safely and neatly guided. This not only reduces physical strain but also minimizes the risk of accidents and increases overall productivity. To meet different operational requirements, various product solutions are available, tailored to specific applications and load capacities.

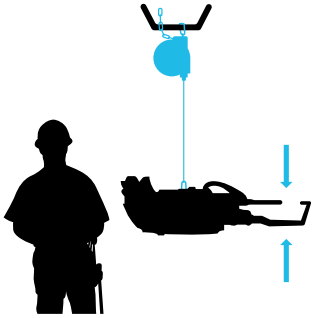
Our ergonomic Spring Balancer solutions:

Hose Retractors:

Kromer Hose Retractors keep loads suspended reliably and safely at any height.

- Conical shape
- Constant retraction force
- Holds the attached load in the chosen position

Hose Balancers:



Kromer Hose Balancers keep loads suspended reliably and safely at any height.

- Conical shape
- Constant retraction force
- Holds the attached load in the chosen position

for more information:

Top quality and cutting-edge technology

All Kromer products are manufactured at our location in southwest Germany, where they are subjected to daily analysis and optimization. Quick, smooth manufacturing processes, cutting-edge machines, and constant, careful quality checks by our motivated staff ensure that each final product is of outstanding quality. Thus Kromer is of course certified according to the international standard of quality management ISO 9001:2015.

Modern work environment and sustainability

An optimized and modern work environment at Kromer ensures consistently high product quality. That's why we maintain state-of-the-art operations – from our production facilities and office equipment to the well-being of our employees. Environmental protection and sustainability are equally important to us. Kromer is certified according to the ISO 14001:2015 environmental standard.

Comprehensive services

The most important goal of our company is achieving the greatest level of customer satisfaction. That is why we offer services that go beyond our product range. Competent, personal consulting and comprehensive answers to all questions are provided as a matter of course. We are also happy to work closely with our customers to develop precisely tailored solutions. Unique training services are provided in our Carl Stahl Academy in Suessen, Germany. Also in-house courses on site are available upon request.

SPARE PARTS
Original Kromer spare parts ensure a long lifetime of the products and smooth work flow in the production.

MAINTENANCE & REPAIRS
If needed, our specialists are pleased to take care of the maintenance and repair. Convenient, fast and reliable.

PRODUCT TRAININGS
Get your certification as qualified technician with our special trainings. Prevent costs and down time in your production.
